Ideal for Interior and Exterior Walls & Flooring

Tested in temperatures from -30°C to 60°C, under different humidity levels, ice, solar radiation, and rain.

30 Year Guarantee

30 YEAR LIMITED WARRANTY

Secure Quality

International Official ISO Certification.

Large Capacity

Capability of producing in very large quantities with fast delivery.

Pre-cut pieces

No processing before installation, easing the installation and reducing completion time.

Easy to Install

No need for specialized stone masons. Designed so that any skilled builder can install it quickly and efficiently.

Lightweight

50% lighter than average quarried stone. Can be installed on all surfaces, including thermal insulation (ETICS).

Made from natural materials

Free of harmful substances for humans and the environment. Made from zero-blasting lightweight aggregates and cement. Does not contain any organic substances, making it non-flammable.

MATHIOS
Grout®

Mathios Grout

Designed for grouting Natural and Architectural Stone, Mathios Grout is formulated with premium-grade cement, advanced aggregates, and performance-enhancing additives. It delivers superior mechanical strength, excellent workability, and long-term durability. Fully waterproof and easy to maintain.

Available in 13 natural, time-resistant shades and in 2 grain sizes.

Combine your chosen shade with the desired grouting style (e.g., recessed, flush, or brushed) to create a custom stone finish.

Stylish improvement at a fraction of the cost

Mathios Stone veneers combine effortless handling with faster, more cost-effective installation than natural stone. Each package includes individual pieces, allowing endless creative combinations.

The ideal choice for large-scale projects where speed and flawless results matter.

And with Mathios Stone, there's no compromise: whether you need to replace or extend, you'll always find the exact same pattern and shade as your original stone.
